# Overview

MetaCar is an important part of the MetaWorld ecosystem.

In the MetaWorld ecosystem, you will own many of your assets, such as gold coins (RichMoon), skins (MetaCloth), land (MetaLand), houses (MetaHouse), and vehicles MetaCar.

MetaCar is the only liquid token in the automotive NFT market.

You can use MetaCar to buy NFT, mint NFT, upgrade NFT, and similarly, by staking RichMoon tokens, you can get MetaCar.

In the metaverse world presented in the future, you can drive your car NFT and gallop in the metaverse world.

# NFT

Automotive NFTs are high-quality fixed assets in MetaWorld.

According to the color of NFT, it is divided into the following qualities from low to high:

Yellow-Orange-Blue-Purple-Red-Diamond

## Upgrade of NFT quality

Upgrading from a low-quality NFT to a high-quality NFT requires the consumption of the corresponding low-quality NFT and the corresponding number of tokens, and there is a probability of failure.

## Transactions of NFTs

Officials will set a guide price for NFTs below diamonds, and within the guide price range, you can trade in the NFT market.

The price of diamond NFT has no upper limit, and the lower limit is estimated to be 100,000usdt.

## Empowerment of NFTs

NFTs of different qualities will produce corresponding NFT fragments every day. 20 fragments can be synthesized once, and the synthesis success rate is 80%. If the synthesis fails, 15 fragments will be returned, and the fragments cannot be traded.

**Diamond NFT is the highest existence in the ecology and can obtain incalculable benefits.**

You can understand that the green NFT is **Volkswagen QQ**, and the diamond NFT is **Lamborghini** .

# Multi-currency linkage

MetaCar:

ways to obtain

①Exchange/Popiah ②Pledge low-priced tokens in the ecosystem, you can get **80%** of the market price

Empowerment: NFT market, trading and upgrading NFT must use **MetaCar tokens**

Other tokens in the ecosystem:  
How to get it: Exchange / Crepes

Enable:

**Materials that MetaCloth must use to enhance NFT colors**

**RichMoon charges a small gas fee per transaction**

# NFT trading market

The NFT trading market is the only market in the MetaWorld ecosystem;

The market uses only **MetaCar tokens** for circulation;

RichMoon and MetaCloth tokens will also be enabled.

The empowerment that this market can carry out is as follows:

- ① **RichMoon** as a handling fee for each transaction
- ② Pledge RichMoon and MetaCloth to get MetaCar
- ③ NFT quality (color) can be upgraded (need to **use MetaCloth**)
- ④ Mining of NFT (need to use MetaCar)
- ⑤ NFT transaction (need to use MetaCar)
- ⑥ NFT blind box (need to use MetaCar)
- ⑦ Release of limited NFT

Diamond-level NFTs will get the ultimate empowerment, so upgrading will be the most valuable product in the NFT system.

# Ecology building

**MetaWorld** is a metaverse world created by the new force project team.

Ecology includes:

The only universal token: Richmoon

Skin/Clothing NFT Token: MetaCloth

Automotive NFT Tokens: MetaCar

Land NFT Token: MetaLand

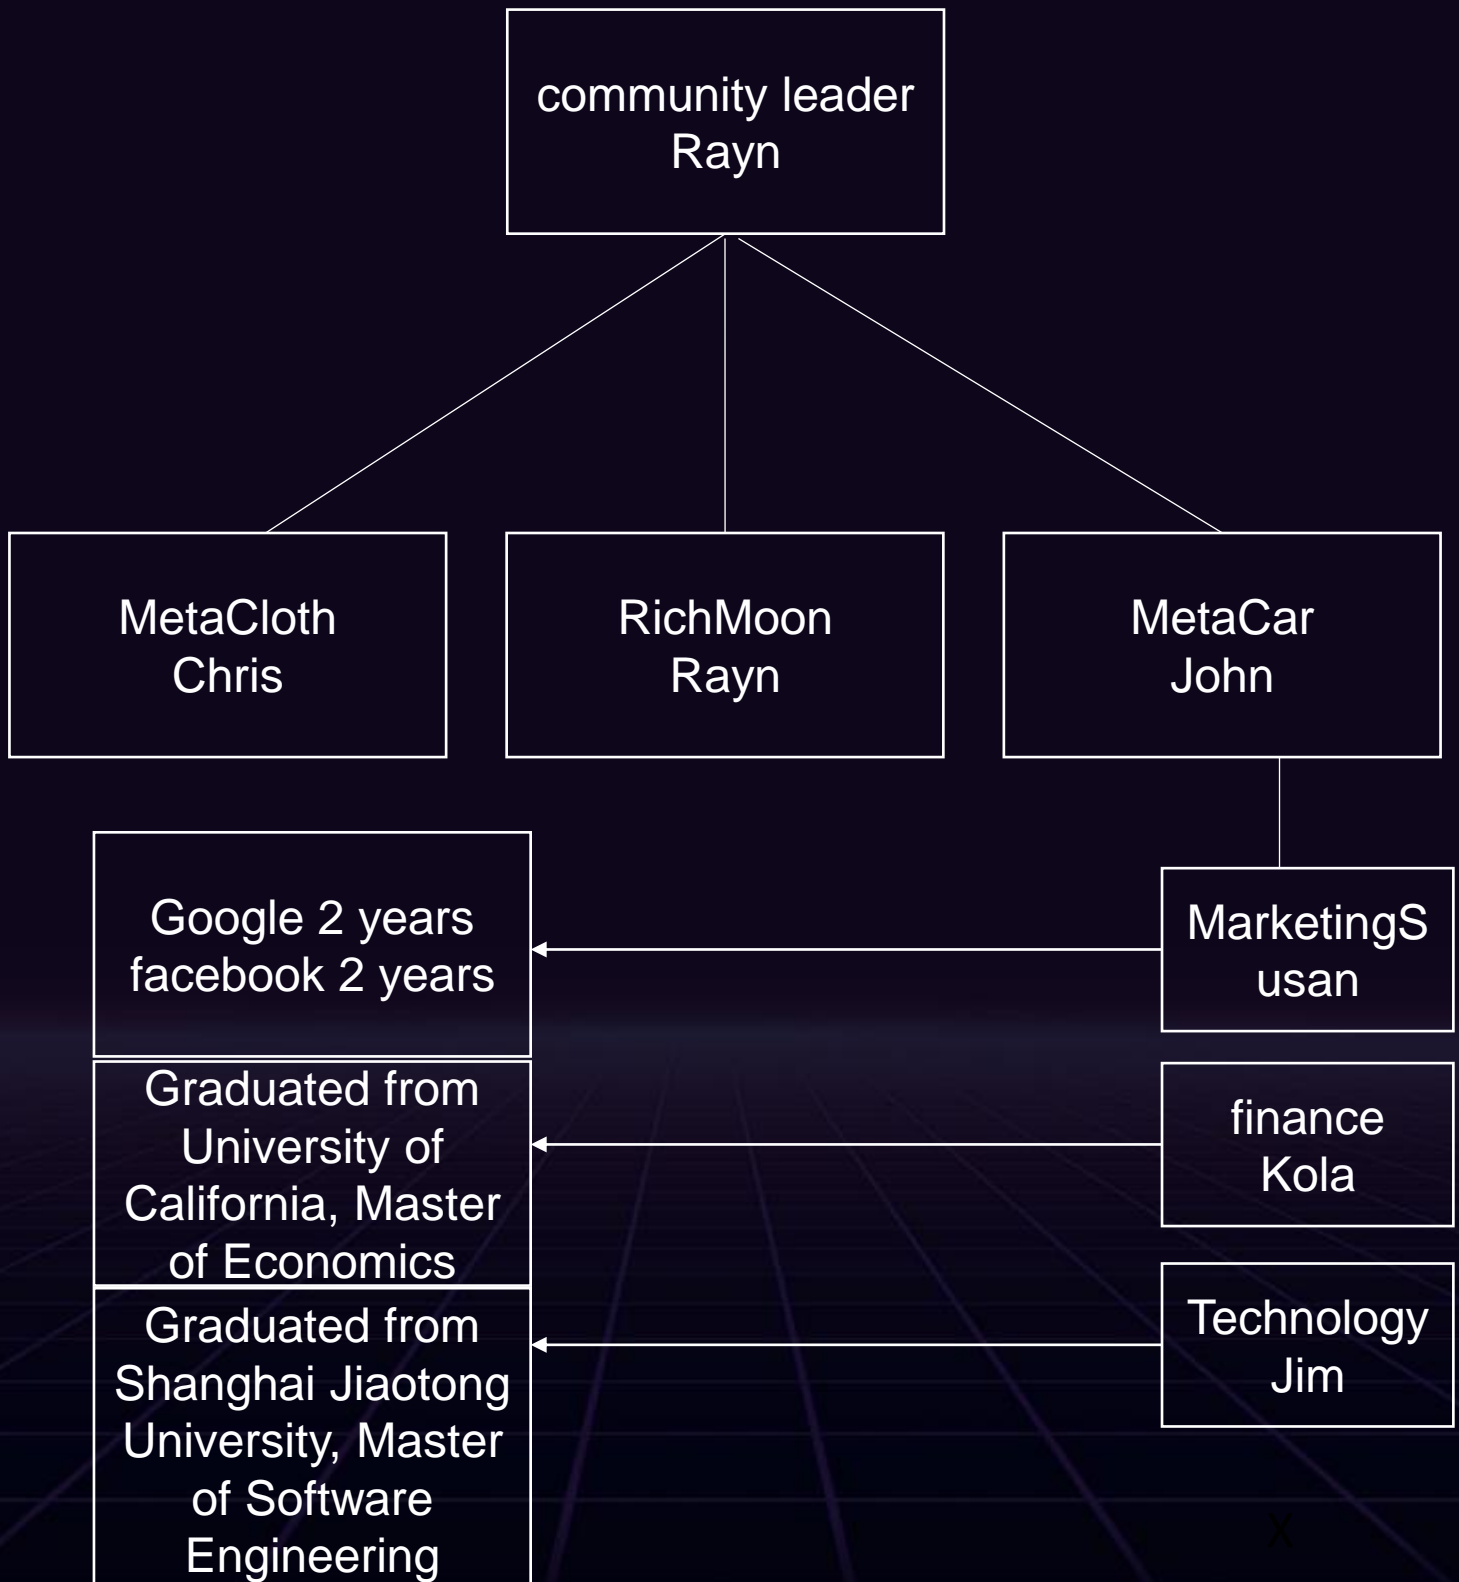

House NFT Tokens: MetaHouse

Through the casting of different ecology, a metaverse world close to real life is created.

All tokens in this ecosystem can be linked together, and the ecological construction will be more complete.
